CUIUINI			CUIUINI	Fly In Floating Cabins VI			STAND BY								+2 ft	😞	↑	1"	0			
TOTAL:							19	789	81	11	1	1	0	1								

- (1) The fish are not large because headwaters water levels are very high and we are forced to fish the mouth where water levels are a bit better, there is, as always, excessive fishing pressure**
- (2) Fishing has dropped because of rising water levels. Next week it could ge worst if water levels continue to rise.**
- (3) Miraculously we were able to cross over the Unini waterfalls with the Amazon Angel Yacht just before water levels dropped! It is now stuck in a low fishing pressure area but water levels are high.**
