NAVIGATING		CUIUINI	Fly In Floating Cabins VI				STAND BY								+3 ft	😞	↓	0	0	(2)	
TOTAL:							18	1442	61	7	0	0	0	0							
<p>(1) Fishing is good in terms of numbers but not in size because headwaters water levels are very high and we are forced to fish the mouth where water levels are a bit lower, but there is, as always, excessive fishing pressure in this area. However, finally rain has ceased in this region which is expected this time of the year.</p> <p>(2) Water levels are still high, however, here too rain has ceased in this region which is expected this time of the year</p> <p>(3) Water levels are high which is normal this time of the year. Therefore, we are repositioning these Fly-In Floating Cabins 80-200 miles north and north-west.</p>
