<p>(1) The Uatuma has no trophies and there are many sport fishing boats, since there are no entry barriers. It was chosen as a last moment fall back since we had a temporary problem in our Indian Reserve lease on the Matupiri. However, we mentioned this problem up-front to our guests before their international departure.</p> <p>(2) Fishing is below River Plate's standards since we had a temporary problem in our Indian Reserve lease on the Matupiri, we had to move our operations mid north prematurely (before dry season) where water levels are a bit high which is normal for this time of the year. To worsen the situation, since water levels are high, during the next couple days sport fishing riverboats may approach our Fly In Floating Cabins.</p>
